CONFIDENTIAL

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO : AD/OSO
FROM : AD/OCD
SUBJECT: Dissemination of OSO reports

DATE: 24 June 1949

FILE

Bob:

Believe this fairly expresses our intent, as we worked it out together yesterday, and that it would work out all right in practice. We can always change it if, after a trial period, we find room for improvement.

Unless I hear from you to the contrary, I'll sign the original and send it to the dissemination people on Tuesday, 28 June.

24 June 1949

MEMORANDUM FOR: LIAISON BRANCH, OCD

SUBJECT: Dissemination of OSO reports

1. OSO will continue to indicate, on most of the reports which it issues, the addressees to whom it wishes them sent; and OCD will ensure that all such reports are delivered to the indicated addressees.

a. OCD will in addition effect such dissemination of OSO reports to components of CIA as may be needful to meet their standing requirements and, in the case of reports without restrictions imposed by OSO, will disseminate them to State Department, components of the National Military Establishment, Atomic Energy Commission, and Federal Bureau of Investigation in accordance with their standing requirements.

b. OSO reports which must be withheld, in accordance with OSO instructions, from one or other of the agencies named in paragraph 1 (a) above, will be stamped CIA INTERNAL USE ONLY and will not be sent to any office outside of CIA.

c. No OSO report will be sent to any agency except those named in paragraph 1 (a) above save upon direction of OSO, or with the prior approval of OSO.

2. Single-copy OSO reports which are to be sent outside of CIA, and which it is not feasible to reproduce for CIA use, may be routed through CIA offices needing the information prior to dispatch outside of CIA. However, documents of this nature which are exclusively or almost exclusively of departmental intelligence nature will not be delayed in transmission to the Department concerned by internal CIA routing. Borderline cases will be treated on an ad hoc basis, weighing the possible usefulness of each to CIA analysts against the importance of the time factor in getting the document to the Department which is primarily concerned.
